Training Hub

Welcome to the Anova Training Hub

Anova is firmly committed to offering maximum support to our customers so they can optimize the use of Anova applications. Below is a suite of free training materials.

Start by clicking on one of the training videos below:

1Transcend Welcome VideoANOVA

2Transcend - General NavigationANOVA

3Transcend - Asset Summary, Filters, FavoritesANOVA

The Anova Training Hub provides videos for site navigation, monitoring/analytics features and hardware solutions. The training hub is updated on a regular basis when new features, products and hardware becomes available.

TRANSCEND TERMINOLOGY

| | | | |
|-----------------------------|---|--------------|---|
| Domain | Area in Transcend specific to one customer | Tree | A Tree is used for filtering assets so that only certain subsets may be viewed. When viewing a tree filter, this filter applies to all subsequent screens selected (events, maps) |
| RTU (Remote Telemetry Unit) | Device attached to the Asset which transmits data back to the DOLV3 system | Group | A Group is used to arrange specific assets together for simple viewing on the Asset Summary page. Users can be assigned to view specific groups only if you do not want them to see all assets on the domain. |
| RTU ID / DEVICE ID | Unique identifier assigned to the RTU | User Role | The access level which a user may be assigned (Administrator, End Customer, Asset Viewer, etc.) |
| Data Channel | Contains data for Level, Pressure, Battery & GPS sensors | Roster | A group of contacts which are configured to receive email/text alerts |
| Event | An alert configured on the data channel to warn of inventory levels or potential issues (missing data, usage rates, pressure, etc.) | Watchlist | Quick access to single assets, you can add/remove devices from this list |
| Asset | ISO Tank Container which is being monitored | Favorites | Prefiltered lists saved from the Asset Summary page based on user filtering criteria |
| Site | Identifies the owner of an Asset | Landing Page | First page view when logging into Transcend, default screen is the Asset Summary view unless a saved favorite is selected as a default |
